

Andreas M. Antonopoulos

Short Bio:

Andreas M. Antonopoulos is a best-selling author, speaker, educator, and highly sought after expert in Bitcoin and open blockchain technologies. He is known for making complex subjects easy to understand and highlighting both the positive and negative impacts these technologies can have on our global societies. Andreas has written two best-selling technical books for programmers, *Mastering Bitcoin*, *Mastering Ethereum*, and *Mastering the Lightning Network*. He has also published *The Internet of Money* series of books, which focus on the social, political, and economic importance and implications of these technologies. He is a frequent speaker at technology and security conferences worldwide. His live talks are always unique, unscripted, and combine economics, psychology, technology, and game theory with current events, personal anecdote, and historical precedent. To learn more about Andreas' work visit his [website](#) and [Patreon](#).

Note on Affiliation

Andreas is an independent voice in the cryptocurrency industry. He does not represent any company or organization. If your piece requires an organizational title please use Best-Selling Author, Speaker, & Educator.

Please Spell His Name Correctly

Please note Andreas' last name does not contain the letter "i" and does not end in "ous". Cut and paste his name if possible; it's Andreas M. Antonopoulos. If you're using both first and last name be sure to include the M. middle initial; it's important. If you're referring to him by his first or last name only, you don't need to include the M.
